

## ANNOUNCING NEW URGENT CARE SERVICES!

Our new Urgent Care facility is intended to treat pets with minor injuries or concerns. This supplemental service will help streamline the emergency care needs in our community. Any patients in need of more advanced treatment can be quickly transferred to the main NIVES building for additional critical care or 24-hour hospitalization.

We have a dedicated team of Call Center & Triage Specialists available to help determine which level of veterinary care to is required. Our main, NIVES hospital is conveniently located just across the parking lot.

NIVES Urgent Care provides outpatient services for your pet. These services are typically non-life-threatening emergencies that are in need of same-day treatment for the best outcomes.

## SOME OUTPATIENT EMERGENCIES INCLUDE:

- Eyes: swelling, discharge, redness
- Nose: running, crusting, discharge
- Ears: discharge, debris, odor, twitching, scratching, shaking
- Coughing or sneezing
- Vomiting
- Diarrhea
- Straining to have a bowel movement
- Facial swelling, licking, or scratching

### 24-Hour Critical Care, Urgent Care and Specialty Services

### 24-Hour Critical Care, Urgent Care and Specialty Services

260-426-1062 | [nives24h.com](http://nives24h.com)

## OUR MISSION

Our Mission is to provide the highest quality 24-hour urgent, critical, and specialty medicine for small animals. We are fully committed to enhancing the unique relationship between humans and companion animals by providing the best possible care. We serve the veterinarians and pet owners in this tri-state region, as a referral center for excellent, compassionate, and timely veterinary care.

## VETERINARIANS

### CRITICAL CARE REFERRALS:

For critical care referrals or case transfers, please call our office to speak to one of our doctors to discuss treatment. In the event of a life-threatening emergency, your client can proceed immediately to our facility while your clinic contacts our office.

### SPECIALTY REFERRALS:

For specialty referrals, please submit a referral form with pertinent patient information for the specialty of your choice. The forms should be submitted through rVetLink Portal at [nives.rvetlink.com](http://nives.rvetlink.com). Patient test results and treatment summaries can be found there as well. Please advise your pet owners to call our office to schedule their appointment after the referral information has been submitted.

## SERVICES

### SPECIALTY SERVICES:

**NIVES features a team of board-certified specialists who have advanced training in various veterinary medical and surgical disciplines.**

You and your pet may be referred for an appointment with a veterinary specialist if diagnosing or treating your pet's health problem requires specialized equipment and/or intensive medical care. Our hospital features state-of-the-art equipment for fast and reliable diagnostic testing including in-house blood work, digital radiography, CT scan and ultrasound imaging.

**NIVES is proud to offer the following specialties:**

**CRITICAL CARE**

**URGENT CARE**

**CARDIOLOGY**

**INTERNAL MEDICINE**

**SURGERY**

**PHYSICAL REHABILITATION**

## CRITICAL CARE

### CRITICAL CARE SERVICES:

We are proud to have a committed team of doctors, dedicated solely to emergency and critical care. In 2015, NIVES became the only veterinary hospital in the state of Indiana to be certified as a VECCS Level II emergency and critical care facility. This certification distinguishes our hospital as having the medical staff, specialized equipment, and training necessary to provide high-quality emergency and critical patient care 24/7/365.

Hospitalized patients are given around-the-clock care by our team of Doctors, Registered Veterinary Technicians, and Veterinary Assistants. Our compassionate experts are here to help you make the best care decisions for your pet.
